

Activate is a new Key Stage 3 Science course for the 2014 curriculum, designed to support every student on their journey through Key Stage 3 to Key Stage 4 success. This Teacher Handbook provides full lesson suggestions that build maths, literacy and working scientifically skills vital for success in the new GCSEs, as well as full assessment guidance for the new curriculum, with assessment for learning checkpoints. This Teacher Handbook accompanies the Activate 1 Student Book, with a spread-by-spread match to the content. Every lesson has a working scientifically objective, so you can be sure you're covering this new area of the curriculum. Use Activate 1 and 2 to cover the Programme of Study in two years. Add Activate 3 for a contextual consolidation and extension of content.

What Lands are These?, The Great Pyramid of Giza (Engineering Wonders), Garden Natural History (Collins New Naturalist), Keeping the Moon, C.S. Lewis & Narnia For Dummies, Radiology of Birds: An Atlas of Normal Anatomy and Positioning, 1e, Queen Victorias Scotland,
