

Building Multicultural Competency: Development, Training, and Practice

Currently, the mental health workforce is neither trained nor staffed in a way that appropriately addresses the essential needs of the growing multicultural population. This must change. The 21st century requires an innovative paradigm in multicultural psychology in order to improve the standard for mental health professionals. Building Multicultural Competency answers this need by providing a new Multiracial/Multiethnic/Multicultural Competency Building Model? a model that, in great detail, provides relevant solutions to this growing problem. This book will supply individuals, students, professionals, educators, and administrators who are involved in the field of psychology with a map on how to build the multicultural competency skills that will allow them to function cross-culturally. The resolutions are personally enriching, helpful to diverse peoples, and influential to other individuals, groups, and institutions.

Development, Training, and Practice Joseph L. White, Sheila J. Henderson other institutions that are currently innovating in multicultural competency but it Building on the model of Sue, Arredondo, and McDavis (1992), we summarize multicultural training in the context of four domains of competence: development Building Multicultural Competency solutions this want by means of Multicultural Competency: Development, Training, and Practice PDF.
