

# Jeeves, I Need Help!: Searching Tips and Tricks for Kids on the Net

Jeeves, I Need Help! helps kids do what they want to do online faster, easier, and more effectively - whether its hooking up with other kids or researching a topic for a school report. Written in the same entertaining but authoritative tone as Callie Gregorys Jeeves, Im Bored, this is a how-to book that addresses the needs of kids with clear, practical tips and strategies. When kids use the Internet at home, they dont have the benefit of a reference librarian who can preselect the best resources. Jeeves, I Need Help! teaches them to play that role themselves, explaining which sites are likely to be reliable and appropriate, how rewording a question may get a better answer, or how to narrow or broaden a search as needed. Also included is information on e-mail, URLs, plug-ins, site navigation, filtering software, and safety concerns.

I have no need to be able to search my home computer from work and vice versa, nor do I need to share files between the two computers. :Need the latest version of Netscape or any other browser?
